Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 1-25 are pending in this application.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9,10,13-20,23-24, drawn to the transfer of data packets from one location to another, classified in class 709, subclass 231.
- II. Claims 11,12, drawn to a modifying information or program based on the data packets, classified in class 709, subclass 228.
- II. Claims 21,22,25, drawn to determining intruding data packets into the network, classified in class 709, subclass 250.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case invention II drawn to a modifying information or program based on the data packets. Invention I is drawn to the transfer of data packets from one location to another which has separate utility such as streaming media files. See MPEP § 806.05(d).

Inventions I and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case invention III is drawn to determining intruding data packets into the network. Invention I is drawn to the transfer of data

packets from one location to another which has separate utility such as streaming media files. See MPEP § 806.05(d).

Inventions II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case invention II drawn to a modifying information or program based on the data packets. Invention III is drawn to determining intruding data packets into the network which has separate utility such as determining that certain data packets can not be received because they do not have the correct header information. See MPEP § 806.05(d).

Examiner contacted Mr. James Weixel but was informed that he was not in charged of the case anymore and was given a number to Mr. Leonard Suchyta's office. However, Mr. Leonard Suchyta informed the examiner that he was not in charged of the case and was given the number to Mr. Edward Gorden, registration # 54130. Mr. Edward Gorden is not the attorney on record. The examiner has advised Mr. Edward Gorden to file a change of address and a change of power of attorney. None of the attorney chose to elect.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143)

In accordance with 35 U.S.C 133, a shortened statutory period of one month(not less than 30 day) is hereby set forth to this Office Action. See also MPEP 710.02(b).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Backhean Tiv whose telephone number is (571)272-3941. The examiner can normally be reached on 9 A.M.-12 P.M. and 1 -6 P.M. Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Zarni Maung can be reached on (571) 272-3939. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
